

29 September 1962

MEMORANDUM FOR MR. MCCONE

1. Unless you perceive objection, I plan to go ahead with my schedule of leaving here at 0800 Monday morning for Colorado Springs with the entire GMAIC group for conferences with NORAD and briefings on space detection and tracking system, in order to insure that we have all of the take that we need.

2. Our present schedule calls for a full day of work Tuesday returning on Wednesday. I have asked Ray Cline to be the Agency representative for USIB on Wednesday.
